

COLLEYVILLE GARDEN CLUB

Grants for GCISD schools or
Colleyville non-profit youth organizations

Does your school or youth organization have a gardening project that needs funds to proceed for the 2023-24 school year?

Founded in 1961, Colleyville Garden Club was established to promote an interest in gardening education, environmental concerns, civic beautification and conservation of natural resources. Each year, CGC offers a variety of grants designed to support hands-on-learning and projects/activities for youth in these areas. This year, CGC will offer a total of 4 grants for amounts ranging from \$250-\$500. Classroom teachers, coordinators and club sponsors are encouraged to apply!

PROJECT IDEAS

- Planting a tree, such as a Redbud tree to observe, draw and journal the changes through the year.
 - Planting an edible garden to observe the growth of seeds.
 - Establishing a pollinator garden to attract butterflies
 - Establishing a wildlife sanctuary
 - Planting a Texas Native garden.
 - Establishing a Monarch Way Station with appropriate plants.
 - Planting a "Sensa-able Garden" that uses plants that appeals to one's senses
 - Purchasing rain barrel and supplies for existing garden
 - Purchasing supplies for aquatic pond studies
- Projects not limited to above suggestions

Grant may include plants, soil amendments, tools, equipment and supportive literature.
